

Subrang Arts

Exhibition on Vivekananda & Indian Civilisation

13th-14th January 2014 (Free Admission)
10am - 4pm

The SV150 Committee and Subrang Arts
are proud to present Exhibitions on the
Life of Vivekananda and the Ancient
Indian Civilisation.

Vivekananda was a key figure in introducing the
Indian philosophies of Vedanta and Yoga to the
Western world, and perhaps best known for his
inspiring speech which began, 'Sisters and brothers of America'
..., at the Parliament of the World's Religions in
Chicago in 1893. He is credited with raising interfaith awareness, and in
particular universal tolerance and acceptance of different paths and beliefs.

Indian Civilisation, one of the most ancient in the world, has
contributed to philosophies, sciences, arts, architecture,
religion - in fact to every field of human endeavour possible.

Venue:

Bernard Weatherill House
